ADESHINA ATTOE

TECHNICAL OPERATIONS & FULL-STACK DEVELOPMENT

Lagos, Nigeria | +234 707 869 3662 | adeshinaattoe23@gmail.com | LinkedIn | Portfolio | GitHub

PROFILE

- Computer Science graduate combining hands-on web development with practical administrative operations, project coordination, and documentation experience.
- Builds and troubleshoots web applications while also supporting onboarding, finance and payroll workflows, procurement, records, and office operations.
- Known for a structured approach to problem-solving: clarify the issue, check the data or process, implement a practical fix, and verify the result.

AREAS OF EXPERTISE

- Software delivery: HTML, CSS, JavaScript, React.js, REST API integration, Git/GitHub, debugging and deployment
- Technical operations: issue triage, user/admin workflows, application reliability, documentation, product iteration
- Administration: onboarding, records, correspondence, scheduling, procurement and inventory coordination
- Business support: finance-sheet reconciliation, payroll support, reporting, event logistics, Google Analytics
- Collaboration: stakeholder communication, cross-functional coordination, prioritization, process improvement

PROFESSIONAL EXPERIENCE

Founder & Full-Stack Developer | 2025 – Present
Senzy Enterprises · Lagos, Nigeria

- Lead hands-on development of digital products, moving work from concept and interface implementation through testing and iteration.
- Develop Senzy Core, an ongoing React.js-based organizational software concept intended to help teams structure operations and manage access using modern web technologies.
- Coordinate project tasks and documentation while balancing product development with business and operational needs.

Full-Stack Developer | Sep 2025 – Dec 2025
Slum and Rural Health Initiative Network (SRHIN) · Ibadan, Nigeria

- Developed and maintained internal web applications supporting organizational workflows and digital information access.
- Built responsive dashboards for reporting and outreach programmes and worked with stakeholders to turn operational needs into usable digital tools.

Administrative Officer | Jan 2026 – Jun 2026
Slum and Rural Health Initiative Network (SRHIN) · Ibadan, Nigeria

- Coordinated office operations, records, correspondence, schedules, procurement documentation, and inventory tracking.
- Onboarded 30+ people over three months and worked with finance colleagues on finance-sheet reconciliation and payroll support.
- Coordinated replacement of faulty office items from available stock and followed up on repairs to keep the workplace functional.

Digital Marketer | Apr 2025 – Jun 2025
Zimcrest Technologies · Abuja, Nigeria

- Supported social campaigns, content development, and market research; set up Google Analytics to monitor website traffic and inform future campaign decisions.

Contract Web Developer | Aug 2026 · Contract (2 months)
Iwemi · Remote

- Resolved a nopCommerce first-load issue that caused an error until the page was refreshed by investigating the request/page flow and correcting the issue so visitors could reach the intended page on first load.
- Checked admin access workflows for registered users and book orders; improved first-visit usability without claiming unverified conversion or revenue gains.

Administrative Project Support | During SRHIN engagement
ActFast Project · SRHIN

- Supported project administration, event logistics, documentation, and activity coordination to keep team delivery organized.

SELECTED PROJECTS

MindStack — https://senzyenterprises.github.io/Mindstack/. Educational web platform designed to help users access learning resources and build practical skills.

Senzy Core — In development · Aug 2025 – Present. Organizational software concept for structuring operations and managing access; built with React.js and npm-based tooling; still in development.

Amora — Project website / portfolio. Launched relationship-focused web project designed around helping people connect with potential partners and discover compatible connections.
